Midpeninsula Regional
Open Space District

R-24-83
Meeting 24-18
June 26, 2024

## AGENDA ITEM 7

## AGENDA ITEM

Amend the Midpeninsula Regional Open Space District's Classification and Compensation Plan for Compensation Study Adjustments for Unrepresented Office, Supervisor, and Management Employees

## GENERAL MANAGER'S RECOMMENDATIONS

Adopt a resolution amending the Classification and Compensation Plan based on the findings of a recent Compensation Study and recommendations from the Financial and Operations Sustainability Model (FOSM) Refresh, to:

## Engineering and Construction:

1. Reassign the Capital Project Manager II from a current salary range of 31 to a new salary range of 36 .
2. Reassign the Capital Project Manager III from a current salary range of 39 to a new salary range of 40 .
3. Reassign the Senior Capital Project Manager from a current salary range of 43 to a new salary range of 44 .

## Information Systems and Technology:

4. Reassign the Data Analyst I from a current salary range of 30 to a new salary range of 32 .
5. Reassign the Data Analyst II from a current salary range of 34 to a new salary range of 36.
6. Reassign the Senior Technologist from a current salary range of 38 to a new salary range of 40 .
7. Reassign the Applications Engineer from a current salary range of 36 to a new salary range of 38 .
8. Reassign the GIS Program Administrator from a current salary range of 43 to a new salary range of 45 .
9. Reassign the Information Technology Program Administrator from a current salary range of 43 to a new salary range of 45 .

## Field Supervisors:

10. Reassign the Maintenance Construction \& Resource Supervisor from a current salary range of 35 to a new salary range of 36 .
11. Reassign the Capital Projects Field Manager from a current salary range 42 to a new salary range of 44.

## New FOSM Classifications:

12. Establish new classification of Budget \& Analysis Supervisor and assign to salary range 43.
13. Establish new classification of Capital Project Manager I and assign to salary range of 32.
14. Establish new classification of Information Systems Technology (IST) Applications Program Manager and assign to salary range 45.

## SUMMARY

As provided for in Board Policy 2.03 Employee Compensation Guiding Principles, Administrative Policy 3.10 Classification and Compensation, and Personnel Policies and Procedures Manual, Policy 2, Section 2.1, the General Manager (GM) may periodically direct that a compensation and/or classification study be performed, organization-wide or for specific departments, work groups or classifications, in order to keep the District's Classification and Compensation (Class \& Comp) Plan current and competitive. Such studies may result in recommended amendments to the Class \& Comp Plan, including, but not limited to, new classifications, reclassifications, or abolishing existing classes, and/or may reassign a class from one salary range to another.

The GM recommends the following amendments to the Class \& Comp Plan based on:

1. A thorough review and evaluation conducted by Gallagher, formerly known as Koff \& Associates, ("Gallagher/K\&A"):
a. Engineering and Construction (3 positions)
b. Information Systems and Technology (6 positions)
c. Field Supervisors (2 positions)
2. The recommendations from the FOSM refresh which concluded earlier this year. (3 positions)

## DISCUSSION

At the direction of the GM, Human Resources (HR) staff recently commissioned a phased, comprehensive compensation study for unrepresented Office, Supervisory, and Management (OSM) classifications that was conducted by an outside human resources firm, Gallagher/K\&A, who was selected through a competitive Request for Proposal (RFP) process. A compensation study is the process of thoroughly reviewing comparator agencies' compensation for the same or similar classifications (positions) to ensure that District's compensation is updated consistent with best practices, and more specifically determine if District compensation is externally competitive and internally equitable. Pursuant to Board Policy 2.03 Employee Compensation Guiding Principles, a competitive salary is defined as median to the $55^{\text {th }}$ percentile of the comparator agencies, plus or minus five percent (when comparing to benchmark agencies using 'top-range salary). The comparator agencies were approved by the Board in 2013 based on recommendations by Gallagher/K\&A. In evaluating potential comparator agencies, Gallagher/K\&A thoroughly analyzed a number of factors as discussed below.

1. Scope of Services Provided and Geographic Location- Organizations providing the same or similar services as the District ideally within the Bay Area. A sufficient number of
comparator agencies that provide similar open space services were not identified in the Bay Area. Thus, other agencies within the state of California were included due to the similarities in program areas to agencies in those areas.
2. Organization Type and Structure - Agencies of similar size providing similar services are generally recommended as comparators. However, due to the limited number of agencies meeting those criteria in the Bay Area, cities and specific departments in larger organizations were recommended. For example, several county parks departments were recommended as comparators for the District. With the more technical types of position classifications, such as open space or resources management, the size of the organization is less critical since the classification perform similar work.
3. Similarity of population, staff, and operational budgets - These elements provide guidelines in relation to resources required (staff and funding) and available for the provision of services. Again, larger agencies were selected as comparators, even though they serve larger populations and have larger budgets.
4. Labor Market - Many agencies are in competition for the same pool of qualified employees. No longer do individuals necessarily live in the communities they serve. The geographic labor market area, where the District may be recruiting from or losing employees to, was taken into consideration when selecting comparator organizations. By selecting employers within a geographic proximity to the District, the resulting labor market data generally reflects the region's cost of living, housing costs, growth rate, and other demographic characteristics to the same extent as competing employers to the District. However, it was difficult to find a sufficient number of agencies that provide a similar scope of open space services within the immediate geographic region. It was necessary to look at agencies that were outside of the immediate labor market to get sufficient market data related to the technical specialties within the District. When this occurs, we are able to apply geographic differentiators to adjust upward the compensation in those agencies that have a lower cost of labor.

The 14 comparator agencies approved by the Board in 2013, and consistently used in subsequent classification and compensation studies, include:

- City of Palo Alto
- City of Walnut Creek
- County of Marin
- County of Sacramento
- County of San Mateo
- County of Santa Clara
- County of Santa Cruz
- East Bay Regional Parks District
- Livermore Area Recreation and Parks District
- Marin Municipal Water District
- Riverside County Regional Park and Open Space District
- Santa Clara Valley Open Space Authority
- Santa Clara Valley Water District
- Sonoma County Agriculture Preserve and Open Space District

Compensation studies for employees represented by the Field Employees Association (FEA) and Midpeninsula Rangers Peace Officers Association (MRPOA) are conducted approximately every three years in advance of the negotiations process. Compensation studies for Board Appointees are conducted annually pursuant to Board Policy 2.20 Board Appointee Performance Evaluation

Process. The most recent compensation study for unrepresented OSM classifications occurred approximately 10 years ago, in 2013-14, and prior to that in 2010.

Although it has been some time since the last compensation study was conducted for OSM classifications, the District has since worked in other ways then to maintain compensation for these positions competitive with the market. For all but one year, the District has provided annual base wages adjustments to each classification. Since at least 2012, wages for unrepresented OSM employees have increased every July by three percent. Additionally, in November 2022 the Board approved a base wage adjustment of four percent as an unusual midyear adjustment to account for a rapid and steep growth in inflation.

Prior compensation studies for unrepresented classifications have been conducted all at once. The current compensation study has been conducted in a phased approach in an effort to avoid significant impacts to other important and time sensitive HR functions, including ongoing recruitment efforts. A phased approach will also allow for a scheduled cyclical review of compensation for unrepresented OSM classifications, similar to the process for represented classifications.

All phases of this comprehensive compensation study have been completed.

| Phase | Classifications | Status/Schedule |
| :--- | :--- | :--- |
| 1a | Executives and Manager | Completed |
| 1b | Administrative and Technicians | Completed |
| 2a | Supervisors and Seniors | Completed |
| 2b | Journey Level | Completed |
| 3 | Advanced Journey Level | Completed |
| 4 | Field Supervisors | Completed |

As part of these compensation studies, HR Staff meets with all employees during the appropriate phase to discuss the process of the compensation studies, review the results, and answer questions and receive feedback from employees.

Only those positions that are determined to be below median and/or lack appropriate internal alignment will be brought forth to the Board of Directors (Board) for consideration of a compensation adjustment.

## Phase 2, 3, and 4 Results and Recommendations:

As part of Phase 2, 3, and 4, Gallagher/K\&A conducted compensation studies for the following 24 classifications:

- Accountant II
- Applications Engineer
- Area Manager
- Capital Project Manager II
- Capital Projects Field Manager
- Data Analyst II
- Environmental Education Specialist
- Facilities Maintenance Supervisor
- Field Resource Specialist
- Finance Supervisor
- GIS Program Administrator
- Human Resources Supervisor
- Information Technology Program Administrator
- Interpretation Education Program Manager
- Interpretive Specialist
- Management Analyst II
- Maintenance, Construction, \& Resource Supervisor
- Planner II
- Property Management Specialist II
- Public Affairs Specialist II
- Real Property Specialist II
- Resource Management Specialist II
- Visitor Services Program Coordinator
- Volunteer Program Manager

Of the 24 classifications surveyed, seven were found to be below the adjusted top step median of comparators, the Applications Engineer, Capital Project Manager II, Capital Projects Field Manager, Data Analyst II, GIS Program Administrator, Information Technology Program Administrator, and Maintenance, Construction, \& Resource Supervisor. Sixteen classifications were found to be at or above the adjusted top step median of comparators. One classification did not have the required minimum of four matches to perform a statistical analysis on the market data.

The following classifications were not surveyed by Gallagher/K\&A, rather they are part of a classification series and are therefore aligned to the classifications surveyed using internal equity principles. Internal equity between certain levels of classifications is a fundamental factor to be considered when making salary decisions because it represents internal value of classifications within job families, as well as across the organization. When a market or internal equity adjustment is granted to one class in a series, the other classes in the series are also adjusted accordingly to maintain internal equity:

- Capital Project Manager I, Capital Project Manager III, and Senior Capital Project Manager (aligned with Capital Project Manager II)
- Data Analyst I and Senior Technologist (aligned with Data Analyst II)

## Applications Engineer

The compensation study conducted by Gallagher/K\&A on the Applications Engineer concluded that the position is 0.70 percent below the adjusted top step median of comparators, inclusive of the November 14, 2022, base wage adjustment of 4.0 percent. The GM recommends a reassignment from salary range 36 to salary range 38 to keep compensation competitive with the market and maintain appropriate internal alignment to the other positions within the Information Systems and Technology Department.

## Capital Project Manager II

The compensation study conducted by Gallagher/K\&A on the Capital Project Manager II concluded the position is 11.5 percent below the adjusted top step median of comparators, inclusive of the November 14, 2022, base wage adjustment of 4.0 percent. The GM recommends a reassignment from salary range 31 to salary range 36 to keep compensation competitive with the market.

## Capital Projects Field Manager

The compensation study conducted by Gallagher/K\&A on the Capital Projects Field Manager concluded the position is 4.1 percent below the adjusted top step median of comparators, inclusive of the November 14, 2022, base wage adjustment of 4.0 percent. The GM recommends a reassignment from salary range 42 to salary range 44 to keep compensation competitive with the market.

## Data Analyst II

The compensation study conducted by Gallagher/K\&A on the Data Analyst II concluded the position is 4.5 percent below the adjusted top step median of comparators, inclusive of the November 14, 2022, base wage adjustment of 4.0 percent. The GM recommends a reassignment from salary range 34 to salary range 36 to keep compensation competitive with the market.

## GIS Program Administrator

The compensation study conducted by Gallagher/K\&A on the GIS Program Administrator concluded the position is 3.2 percent below the adjusted top step median of comparators, inclusive of the November 14, 2022, base wage adjustment of 4.0 percent. The GM recommends a reassignment from salary range 43 to salary range 45 to keep compensation competitive with the market.

## Information Technology Program Administrator

The compensation study conducted by Gallagher/K\&A on the Information Technology Program Administrator concluded the position is 3.0 percent below the adjusted top step median of comparators, inclusive of the November 14, 2022, base wage adjustment of 4.0 percent. The GM recommends a reassignment from salary range 43 to salary range 45 to keep compensation competitive with the market.

## Maintenance, Construction, \& Resource Supervisor

The compensation study conducted by Gallagher/K\&A on the Maintenance, Construction, \& Resource Supervisor concluded the position is 1.1 percent below the adjusted top step median of comparators, inclusive of the November 14, 2022, base wage adjustment of 4.0 percent. The GM recommends a reassignment from salary range 35 to salary range 36 to keep compensation competitive with the market.

## New Classifications for Fiscal Year 2024-2025

In 2024, the final report of the Financial and Operations Sustainability Model (FOSM) Refresh was approved by the board and included recommendations for short-term and long-term staffing growth. The following two new classifications were recommended for FY25 implementation:

## IST Applications Program Manager

The FOSM Refresh report recommended this new position to support the applications and database needs related to growing number of application enterprise systems. The District has prioritized implementing an Information Technology governance structure to promote effective planning, priority setting and accountability of technology resources with business priorities. Growth in the technology arena has attempted to keep pace with the operational growth of the organization. This position will help IST keep up with operational demands.

HR Staff conducted an internal analysis of the proposed classification and recommends it be placed at salary range 45 based on other existing classifications with common characteristics and to maintain appropriate internal alignment to the other positions within the Information Systems and Technology Department.

## Budget \& Analysis Supervisor

Finance and Budget previously existed as separate units within the Administrative Services service line until they were merged as part of the FY24 budget to provide a more streamlined
operation. With the restructuring, the department lost some capacity in budget analysis work. The FOSM Refresh report proposed a new position of Budget and Analysis Supervisor responsible for the daily operations and activities of Budget \& Analysis and supervising two Management Analysts I/IIs. The main duties will include the preparation and development of the annual Budget and Action Plan, assisting departments in the management and preparation of budgets and maintaining budgetary information using the District's Enterprise Resource Planning system. This position will report to the Budget \& Finance Manager.

HR Staff conducted an internal analysis of the proposed classification and recommends it be placed at salary range 43 based on other existing classifications with common characteristics and to maintain appropriate internal alignment with the existing Finance Supervisor classification.

## Capital Project Manager I

The FOSM also recommended (Recommendation 42) expanding career ladders to provide staff growth and advancement opportunities that encourage attraction and retention of qualified employees and reflect workload demands of the District. This includes the use of flexibly staffed classifications where they do not currently exist to enable promotions for qualified staff without need for additional personnel processes. To that end, the GM recommends establishing the new classification of Capital Project Manager I, flexibly staffed with Capital Project Manager II, and recommends it be placed at salary range 32 based on principles of appropriate internal alignment.

## FISCAL IMPACT

If approved, the changes to compensation would take effect in FY25 on July 8, 2024 (the beginning of pay period 24-15). Individual employees will be moved to the step in the new salary range closest to, but not less than, their current hourly rate. There are sufficient funds in the proposed FY25 budget to cover the cost of the recommendation.

| Classification | Current Annual Pay - FY24 |  | Proposed Annual Pay - FY25 |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Range | Step 10 | Range | Step 10 |
| Capital Project Manager I | N/A | N/A | 32 | \$122,244 |
| Capital Project Manager II | 31 | \$119,303 | 36 | \$134,757 |
| Capital Project Manager III | 39 | \$145,009 | 40 | \$148,572 |
| Senior Capital Project Manager | 43 | \$159,911 | 44 | \$163,800 |
| Data Analyst I | 30 | \$116,412 | 32 | \$122,244 |
| Data Analyst II | 34 | \$128,349 | 36 | \$134,757 |
| Applications Engineer | 36 | \$134,757 | 38 | \$141,522 |
| Applications Program Manager | N/A | N/A | 45 | \$167,883 |
| Senior Technologist | 38 | \$141,522 | 40 | \$148,572 |
| GIS PA | 43 | \$159,911 | 45 | \$167,883 |
| IST PA | 43 | \$159,911 | 45 | \$167,883 |
| Budget \& Analysis Supervisor | N/A | N/A | 43 | \$159,911 |
| Capital Projects Field Manager | 42 | \$155,992 | 44 | \$163,800 |
| Maintenance Supervisor | 35 | \$131,538 | 36 | \$134,757 |

## PRIOR BOARD AND COMMITTEE REVIEW

May 16, 2023: The Action Plan and Budget Committee reviewed a recommendation to Amend the Midpeninsula Regional Open Space District's Classification and Compensation Plan for Compensation Study Adjustments for Unrepresented Office, Supervisor, and Management Employees (Phase 1a and 1b) (R-23-53, minutes)

June 28, 2023: The Board approved a Resolution Amending the Classification and Compensation Plan based on the findings of a recent Compensation Study for the purpose of remaining competitive within the labor market and attracting and retaining a qualified workforce (Phase 1a and 1b). (R-23-71, minutes)

## PUBLIC NOTICE

Public notice was provided as required by the Brown Act.

## CEQA COMPLIANCE

This item is not a project subject to the California Environmental Quality Act.

## NEXT STEPS

Upon Board approval, these changes would be effective July 8, 2024 (the beginning of pay period 24-15), and the District's Classification and Compensation Plan would be amended accordingly.

## Attachments

1. Resolution amending the Classification and Compensation Plan based on the findings of a recent Compensation Study
2. Classification and Compensation Plan reflecting compensation adjustments

Responsible Department Head:
Stefan Jaskulak, Chief Financial Officer/Director of Administrative Services
Prepared by/Contact person:
Rebecca Wolfe, Human Resources Supervisor, Human Resources Department

## RESOLUTION NO. 24-XX

## RESOLUTION OF THE BOARD OF DIRECTORS OF THE MIDPENINSULA REGIONAL OPEN SPACE DISTRICT AMENDING THE CLASSIFICATION AND COMPENSATION PLAN

WHEREAS, the Board of Directors has considered certain amendments to the Midpeninsula Regional Open Space District (District) Classification and Compensation Plan based on results from compensation studies conducted on unrepresented Office, Supervisor, and Management (OSM) classifications; and

WHEREAS, the Board of Directors desires to adjust wages of certain classifications in keeping to Board Policy 2.03, Employee Compensation Guiding Principles, to "maintain competitive compensation within the District's labor market" and attract and retain a qualified workforce to accomplish the work of the District.

WHEREAS, a thorough compensation study was conducted to review comparator agencies' compensation for the same or similar classifications (positions) to ensure that District compensation systems are updated consistent with best practices, and more specifically determine if District compensation is externally competitive and internally equitable.

NOW, THEREFORE, the Board of Directors of Midpeninsula Regional Open Space District does hereby resolve as follows:

1. The District Classification and Compensation Plan shall be amended as set forth in Exhibit A, attached hereto and incorporated herein by reference, to incorporate the following:

## Engineering and Construction:

1. Reassign the Capital Project Manager II from a current salary range of 31 to a new salary range of 36 .
2. Reassign the Capital Project Manager III from a current salary range of 39 to a new salary range of 40 .
3. Reassign the Senior Capital Project Manager from a current salary range of 43 to a new salary range of 44.

## Information Systems and Technology:

4. Reassign the Data Analyst I from a current salary range of 30 to a new salary range of 32.
5. Reassign the Data Analyst II from a current salary range of 34 to a new salary range of 36 .
6. Reassign the Senior Technologist from a current salary range of 38 to a new salary range of 40 .
7. Reassign the Applications Engineer from a current salary range of 36 to a new salary range of 38 .
8. Reassign the GIS Program Administrator from a current salary range of 43 to a new salary range of 45 .
9. Reassign the Information Technology Program Administrator from a current salary range of 43 to a new salary range of 45 .
Field Supervisors:
10. Reassign the Maintenance Construction \& Resource Supervisor from a current salary range of 35 to a new salary range of 36 .
11. Reassign the Capital Projects Field Manager from a current salary range 42 to a new salary range of 44.

## New FOSM Classifications:

12. Establish new classification of Budget \& Analysis Supervisor and assign to salary range 43.
13. Establish new classification of Capital Project Manager I and assign to salary range of 32.
14. Establish new classification of Information Systems Technology (IST) Applications Program Manager and assign to salary range 45.
15. The Classification and Compensation Plan attached as Exhibit A shall be effective as of July 8, 2024, and shall supersede the Classification and Compensation Plan for Fiscal Year 20242025 attached to Resolution 24- $\qquad$

*     *         *             *                 *                     *                         *                             *                                 *                                     *                                         *                                             *                                                 *                                                     *                                                         *                                                             *                                                                 *                                                                     *                                                                         *                                                                             *                                                                                 *                                                                                     *                                                                                         *                                                                                             *                                                                                                 *                                                                                                     *                                                                                                         *                                                                                                             *                                                                                                                 *                                                                                                                     *                                                                                                                         *                                                                                                                             *                                                                                                                                 *                                                                                                                                     * 

PASSED AND ADOPTED by the Board of Directors of the Midpeninsula Regional Open Space District on $\qquad$ , 2024, at a regular meeting thereof, by the following vote:

## AYES: <br> NOES: <br> ABSTAIN: <br> ABSENT:

ATTEST:

Curt Riffle, Secretary
Board of Directors

## APPROVED AS TO FORM:

## APPROVED:

Margaret MacNiven, President Board of Directors

Hilary Stevenson, General Counsel

I, the District Clerk of the Midpeninsula Regional Open Space District, hereby certify that the above is a true and correct copy of a resolution duly adopted by the Board of Directors of the Midpeninsula Regional Open Space District by the above vote at a meeting thereof duly held and called on the above day.

Maria Soria, District Clerk

## Midpeninsula Regional Open Space District - CLASSIFICATION \& COMPENSATION PLAN

Fiscal Year 2024/2025 - Effective July 8, 2024 (Pay Period 24-15)
Last revised: 06/26/2024, 04/10/2024, 11/08/2023, 10/11/2023, 06/28/2023, 06/14/2023, 04/26/2023, 01/25/2023, 11/09/2022, 08/10/2022
