

Slender False Brome (SFB) Reimbursement Plan
with
Midpeninsula Regional Open Space District (MROSD)
and
San Mateo County Resource Conservation District (RCD)

Reimbursement = \$350 per acre treated.

Slender False Brome Management Program Steps

1. Homeowner & RCD schedule Pre-treatment Survey.
2. RCD conducts Pre-treatment Survey.
Homeowner receives SFB Control Recommendation, a map of SFB infestation on their property, and reimbursement calculation.
3. Homeowner agrees with Control Recommendation and reimbursement.
Homeowner signs and returns Program Agreement.
4. Homeowner applies control practice or hires a professional.
RCD will be available for on-site consultation at the start of treatment if necessary.
5. RCD conducts Post-treatment Survey and completes Reimbursement Form.
6. RCD issues a reimbursement check.
7. Sometimes, with the agreement of the property owner, RCD may bring in a contractor to treat several properties at one time and no reimbursement to property owner is needed.
